Big Convention at Hot Springs Gets Under Way in Full Steam

## FEDERAL SHOW OPENS

Many Dignitaries Will Take Part in National Road Boosting Meet

HOPE SPRINGS, Ark., April 11.—The eighth annual convention of the United States Good Roads association and the eighth annual good roads show will be held here for the next six days, beginning today.

In addition the annual meeting of the bankhead highway, the Allied States national highway and several other national highway associations will be held.

Twenty governors or their representatives are expected for the meetings, according to J. A. Rountree, director-general of the United States Good Roads association. Forty governors have already accepted life memberships in the association.

State aid and further federal aid for good roads throughout the nation will be discussed. The governors will have an exhibit at the show.

The late Senator J. H. Bankhead of Alabama, long a consistent advocate of good roads in the senate, was president of the association.

**OIL SALESMAN ARRESTED**  
John W. Scott Brought to State Capital Charged With Fraud.

OKLAHOMA CITY, April 11.—Information charging John W. Scott with obtaining \$2,200 under false pretenses was filed in the district court here today.

Scott was recently brought to Oklahoma City from New York, where he was found after a search of several months. He is alleged to have sold the Royhoma Petroleum company \$12,000 worth of casing, representing himself to be an official of a pipe line company. The \$2,200 was an initial payment demanded for the delivery of the pipe.

advised our people to stay where they are.

HEISTOW, April 11.—James Wilkins, colored, known as "Yale Cat" is under arrest on the charge of stealing two sacks of sugar from a J. P. Wright car. A trail of sugar leading led to his arrest. He claims to have bought the sack from another negro.

MIAMI, April 11.—Indian lands in Ottawa county valued at \$82,900 will be sold at auction at the Wyandotte agency May 2, according to announcement by Agent Earl Massey. There are 32 tracts ranging in size from 20 to 120 acres, in approximately value from \$111 to \$10,000, and in quantity from rough wooded tracts to valuable mineral holdings.

CHEROKEE, April 11.—L. H. Smith, vice chairman of the county chapter of the Red Cross, has been chosen delegate for the national conference on social work to be held April 14-15 at New Orleans. The chapter was founded in 1917 by Mrs. Smith, who has been in charge since until last fall, resigning in favor of Rev. N. C. Trumbull.

NOELMAN, April 11.—Dr. J. W. Serrage, director of the department

of public information and welfare of the extension division of the university, is now at Ann Arbor, Mich., attending a conference of extension workers. While in the north he expects to purchase moving pictures for use of the division of this university.

PAWTHUSKA, April 11.—Contractors have organized for promoting better relations between contractors and labor and have gone on record as favoring a building inspector and a permit system for this town. W. A. Ross is president, Louis Mueller, vice president, H. L. Smith, treasurer, and A. J. Wilson, secretary.

MIAMI, April 11.—The 1920 census report, according to the district supervisor, will give Miami a population of about 7,000, while Picher, the center of the mining district,

will have 8,000. Commerce will be 2,500 and Picher about 800. Many complain that large numbers have been missed by enumerators.

# Where the word "Victrola" came from

The word "Victrola" was made up by combining a portion of the word Victor with a portion of the word "viola".

It was originated and trade-marked for the specific purpose of distinguishing products of the Victor Talking Machine Company.

The word "Victrola" is a trade-mark fully protected by registration in the United States Patent Office. Its use or application to other than Victor products is not only misleading, but it is against the law.

## New IDEAL-Arcola Radiator-Boiler

The IDEAL-Arcola is one of the world's newest and greatest of inventions. It is unique—being both a Boiler and a Radiator. Takes the place of a parlor stove, and distributes heat to the rooms, and through its water-jacket conveys the excess heat to connecting AMERICAN Radiators stationed in adjoining rooms. There is no coal-waste! Unlike stoves and hot-air furnaces, the IDEAL-Arcola with its water-backed surfaces does not burn out or rust out—it will easily outwear the building in which it is placed.

## Heats the most and costs least!

The Arcola and the AMERICAN Radiators are made in sections or units and can be increased or decreased in size (Note that 65% of all buildings are altered in size.) Legs cannot be kicked out, as with stoves—hence no fire-risk to building. Does not overheat—hence no danger to children. The soft, radiant, healthful, clean warmth changes a house into a home.

The Arcola may be painted or enameled in any shade or color to match woodwork or decorations. It is not obtrusive like a stove but may be painted to harmonize with any furnishings.

## Shipped complete ready to operate

The beauty of the IDEAL-Arcola method is that no cellar is needed. Everything is on one floor. If there are two or more tenants in the building, each can have his own Arcola and make the temperature to suit his own needs—can make his own climate! If you do not wish at first to heat the entire building, buy a small size IDEAL-Arcola and one or two radiators (at prices lower than herein given) and later on buy extra sections for the IDEAL-Arcola and two or three more radiators to warm more rooms. Investigate at once this greatest value in building equipment.

Catalog showing open views of houses, individual flats, stores, offices, etc., with the IDEAL-Arcola Boiler in position will be mailed (free). Write today
